On the following pages you will find our 2019 product line-up featuring new products, innovative technologies and further category expansion. Two of the most significant developments come in the Nylon and Hexmag categories. Field testing of our nylon category products over the past 18 months drove the development of new materials, new attachment systems and flexibility unseen in the industry. In the Hexmag line we are releasing a new through-molded technology which combines the best attributes of polymer and metal magazines. The first product using this technology is our Glock 17 compatible magazine featured on page 7.

Whether you protect your home, family, or country, our commitment to you is simple – we will continue to produce the best, most innovative products on the market to enhance your experience. We are so confident that we back each product with a hassle-free Lifetime Warranty, protecting your investment.

From the team at SENTRY, thank you for your support and confidence.

WHEN EVERY ROUND COUNTS™

POLYHEX™
The proprietary advanced composite that all Hexmag magazines are made from delivers superior strength and reliable performance across the modern sporting rifle and pistol spectrum.

HEXTURE™
The element that binds the Hexmag line together is the signature, patented, design pattern. This design goes beyond great style it also provides a natural gripping surface.

STAINLESS-STEEL
All Hexmag magazines use the best heat-treated, stainless-steel springs to resist corrosion and fatigue while being loaded for extended periods of time.

TOOL-LESS
The industry’s first true tool-less design for easy baseplate removal to allow cleaning and HexID color customization.

HEXID COLOR SYSTEM
Is an integrated colored ammunition identification system pioneered by Hexmag. Revolutionizing the magazine market with its identifiable follower and latch plate colors. Shooters can personalize their magazines while separating different calibers and ammunition types.

SENTRY AR-15 MAGAZINE SERIES 2
The Next Evolution in AR-15 Magazines

SENTRY AR-15 magazines are the top choice for any sport shooter, competition shooter or tactical/military unit that demand superior strength, proven reliability, and exceptional value.

SENTRY AR-10 MAGAZINE (SR-25)
A heavy-duty magazine for a heavy-duty caliber

SENTRY’s tough and reliable AR-10/.308 magazine made for SR-25 style rifles is made from our tested and proven PolyHex™ and features Hexture’s signature, HEXTURE™ design pattern – for maximum grip purchase.

SAFE TAC MAG’S PATENTED BLUE TRAINING MAGAZINE
Protect lives. Prevent injury.

Specifically designed for non-lethal simulation or blank rounds. Will not accept live rounds thereby preventing accidental or negligent discharge of live weapons in training.

For additional information on availability contact Safe Tac at www.safetacmag.com

Pistols Gen 3-5:

SENTRY™ GLOCK® COMPATIBLE MAGAZINE
Pistol Magazines – Evolved

SENTRY’S approach on a classic. Featuring a full length skeletonized metal frame and feed lips overmolded with a hi-tech polymer for maximum strength and performance.
IT’S ALL ABOUT GRIP

More than just a magazine manufacturer, the team at SENTRY Products Group produces some of the best firearm accessories found on the market today. Tactical accessories, such as the Advanced Tactical Grip, Hexmag Tactical Grip, low profile rail covers, and Grip Tape, allow you to customize your firearm all while elevating your shooting experience.

TO ORDER CALL 877-726-7328 OR EMAIL INFO@SENTRYLTP.COM

SENTRY GRIPS

The Advanced Tactical Grip (ATG) features a three-angle adjustment to accommodate most shooting styles. 17º for pistols/SBRs, 25º for standard angle or 33º for long range.

The Hexmag Tactical Grip (HTG) delivers an over-molded rubber grip with Hexmag design pattern and ergonomically correct finger grooves for increased performance and comes with The Gapper™ for increased comfort.

SENTRY GRIP TAPE

Adding superior grip to Hexmag AR15/AR10 magazines or tactical grips is as easy as peel and stick. The die-cut, self-adhesive Sentry Grip Tape is waterproof and fits perfectly into the Hex-shaped cavities of the magazines or grips. Each sheet contains 48 pre-cut hexagons and will cover both sides of one magazine completely.

SENTRY LOW-PROFILE RAIL COVERS

The ultimate style and protection for your handguard

Sentry Low-Profile Rail Covers are made from heat resistant, high-performance, non-slip rubber. Engineered to protect shooters and their equipment and designed with Hexmag’s signature pattern, KeyMod and M-LOK® rail covers feature The Wedgelok® securing system to hold it tight to your handguard. The Slim Line Picatinny rail cover spans 18 slots (7 inches) for optimal coverage.

In addition to the main compartment the ATAC™ +P features a second compartment with Hook and Loop panel, Universal Holster and additional pistol magazine storage.

ATAC™ +P BAG  TB02[Color Code]  MSRP: $199.99
With years of experience in the tactical nylon market, SENTRY is proud to introduce the most flexible, secure and innovative accessory carry system on the market. This unique Patent Pending design utilizes SENTRY’s Variable Mounting Platform™ enabling accessories to mount directly on standard 1.5” – 1.75” belts via MOLLE / PALS mounting or integrated belt loops in either vertical or horizontal orientations.

The patent pending 1080-2™ mounting platform on the front of each pouch supports nesting units together, allowing quick configuration of gear to support mission demands. The low-profile construction method eliminated traditional binding tape minimizing pouch footprint freeing space on duty belt or load bearing equipment.

SECURE. MODULAR. FLEXIBLE.

World class protection NEOPRENE

Neoprene, a material commonly used in wetsuits, conforms to the shape upon which it is placed. Our Neoprene/Nylon laminate composition assists in repelling moisture and condensation away from your optic, as well as, dirt and debris. This combination helps to protect your optics from the elements and damage while storing or transporting your gear.

STANDARD (3MM) SCOPECOAT®

Full coverage on standard or low turrets, this slim fit cover is perfect for the field.

XP-6 (6MM) SCOPECOAT®

Full coverage on tall or tactical turrets, XP-6 covers are constructed with 6mm thickness and elongated sides for maximum protection.
MEASURING YOUR OPTIC
Optic sizes are listed by overall length and objective size. The length is measured in inches and the objective is measured in millimeters.

Measure the overall length of the scope, including the size of the sunshade, if applicable.

Measure the outside diameter of the objective in millimeters. The objective end of the scope is the end that you see out of, or end furthest from your eye.

MEASURING YOUR BINOCULARS
1. Determine if your Binoculars are Porro Prism or Roof Prism design.
2. Measure the Length (Distance from the ocular eye piece to the objective).
3. Measure the Width (Distance across the body of the binoculars).

SENTRY SCOPECOAT® SELECTING THE CORRECT SIZE
Scopecoat® protective covers fit a variety of optics. When using the right size to cover your optic measure the overall length and the outside diameter of the scopes objective. Our covers stretch approximately 10% beyond their stated size. This will allow you to better fit a cover to your optic while providing maximum protection.

TO DETERMINE WHAT SIZE SCOPECOAT® YOU WILL NEED PLEASE FOLLOW THE STEPS TO THE RIGHT.

SENTRY XP-6 6MM NEOPRENE SCOPECOAT®
The XP-6™ Flak Jacket is designed to offer maximum protection for all service-weapon optics. Elongated sides allow complete coverage for tall or tactical turrets.

**SENTRY SLIDEBOOT™**

Slideboot™ premium neoprene slide cover, perfect for storing your pistols for a trip to the range. Fill your safe or range bag with Slideboot™ covered pistols instead of gun rugs and plastic boxes. Don’t worry about scratches, dings, dust, or dirt when your pistol is covered with a Slideboot™. Our neoprene is oil resistant, so you can oil your weapon and store without leaving oily residue in your safe. New this year protect your red dot sight with Slideboot RD. Specially cut to accommodate most red dot sights fitted onto an auto pistol slide.

Cleaning and Lubrication

Sentry Solutions understand that your guns and gear are very important to you. Performance is paramount. Reliability is crucial. If your hi-tech gear jams, disaster may strike. If high value collectables are damaged in storage, your investments diminish. Protection is key.

The Problem
We looked at the major causes of failure:
1) Dirt, dust, and carbon cause fouling during operation of weapon systems.
2) The potential for pitting and corrosion while in storage, especially in areas of high humidity or near saltwater these problems multiply.

To combat these, we have been locked into an endless cycle of cleaning and lubricating with oil based products. However, as soon as oils are applied the cycle begins again, since it is the oils that attracts and holds the contaminants.

The Solution
Our goal was simple – end the cycle of cleaning and protecting with oils by developing a superior way to clean, lubricate, and protect your guns and gear. After years of extensive research, we created a dry lubrication system, that cleans and protects. In fact, Sentry Solutions oil-free gun care practically makes firearms self-cleaning!

How it Works
By simply replacing solvents, patches, and wet, tacky oils with our dry, oil-free, CDLPs and lubricants that bond to the surface; Guns and gear operate better. Our products provide a micro bonding shield making metals non-stick, leaving nothing to attract and hold debris. Performance, reliability, and accuracy are enhanced; cleaning becomes as simple as brushing off and re-lubing. Sentry Solutions products will not thicken in the cold or thin out in extreme heat, providing protection in even the harshest environment. You will find that even after thousands of rounds, guns look like they haven’t been fired and residue is just blown away.
**Sentry Tuf-Glide™ CDLP and Tuf-Cloth™**

Tuf-Glide™ CDLP is ideal for quick maintenance at home or in the field. The special all-in-one formula allows for a quick clean, lubrication, and corrosion protection. Available in convenient cloth or bottle applications.

- Dry lubricant does not attract dirt, dust, and debris
- Great for all conditions, metals, and finishes, safe for wood and plastics
- Slick action in any temperature – won’t thicken from cold or thin out from heat
- Keeps guns and gear clean, operating smoother, and lasting longer
- Prevents fingerprints, tarnishing, and dulling
- Micro-bonding shield inhibits rust
- Displaces moisture

**Sentry Marine Tuf-Glide™ and Tuf-Cloth™**

Marine Tuf-Glide™ is based on the original Tuf-Glide™ technology but formulated for use in highly corrosive environments, such as saltwater or high humidity. Available in convenient cloth or bottle applications.

- Dry lubricant does not attract dirt, dust, and debris
- Great for all conditions, metals, and finishes, safe for wood and plastics
- Slick action in any temperature – won’t thicken from cold or thin out from heat
- Keeps guns and gear clean, operating smoother, and lasting longer
- Prevents fingerprints, tarnishing, and dulling
- Micro-bonding shield inhibits rust
- Displaces moisture

**Sentry Smooth-Kote™ - Barrel and Bore Treatment**

Innovative Molybdenum dry lubricant & barrel treatment. Protects internal surfaces against friction, fouling, and wear. Fast drying and micro-bonds to metal for excellent lubrication from -65°F to 650°F.

- Non-stick shield repels dirt and eliminates grime
- Extreme fouling reduction enhances accuracy, bullet velocity, and reliability
- Bore treatment without the build-up, no need to adjust charge weight
- Makes routine maintenance simple

**Sentry Hi-Slip™ Grease**

Synthetic Molybdenum blend waterproofs and prevents rust, even in salt water. All the benefits of oils but stays put – will not migrate from extreme temperature changes.

- Stable from -65°F to 650°F
- Exceeds mil-spec for moly grease
- Excellent for smoothing actions
- Great for locking lugs, easier lock-up
- Prevents galling even under high loads and extreme conditions
SENTRY BP-2000™ POWDER
Unique dry (powder) lubricant for trigger jobs, fine tuning feed ramps, bolts, and slides. Made from pure powder, passivated molybdenum disulfide with naturally bonds to metal.
• Reduces friction, smooths, and lightens trigger pulls
• Gets rid of trigger creep for the crispest release
• Oil-free and dry surfaces are non-stick – clean by brushing off and re-lubing

ORDER ONLINE
SENTRY prides itself on providing the right OEM option directly to shooting sports manufacturers. Our OEM program provides efficient ordering, exceptional customer service and timely shipping. Categories include:

**OPTIC COVERS**
Scopecoat by SENTRY has a long history with providing the ultimate protection for any size scope or electro-optic/holographic optic. Choose the Neoprene base color that we offer and have your logo screen printed on each Scopecoat.

**MAGAZINES**
SENTRY’s magazine program is unlike any other in the industry. Firearm manufacturers have the freedom to configure body colors and round capacity with any of our current HexID colors (followers and latch plates) to fully customize their offering.

**FIREARM COVERS**
Top handgun manufacturers choose SENTRY’s Slideboot and Go Sleeves. Providing consumers, the ultimate protection in storage or transportation of their weapon.

**CLEANING AND LUBRICATION**
Sentry Solutions has been the go-to lubricant for many firearm manufacturers. With its innovative dry-film properties SENTRY ensures the consumer receives a fully lubricated and protected firearm.

SENTRY’s OEM solutions can also be completed in our Custom Shop to support your store, association or agency.

**PARTNER WITH SENTRY CALL 877-726-7328 OR EMAIL INFO@SENTRYLTP.COM TO GET STARTED TODAY.**

**PRIVATE LABELING**
Protect your branding while your customer protects their scopes, optics, and firearms with the SENTRY OEM program. Our high-quality screen printing is available in one or two colors. We can apply almost any logo to our Scopecoats and Slideboots.

Many of the world’s leading scope and optic manufacturers trust and recommend SENTRY to protect their products – Live To Protect it’s what we do.
